HORIZON CASH MANAGEMENT HIRES DANIELLE BLOUNT AS PORTFOLIO ANALYST

CHICAGO, November 1, 2011 – Horizon Cash Management LLC, the leading investment advisor specializing in active cash management solutions for the alternative investment industry, today announced that it has hired Danielle Blount as portfolio analyst.

Ms. Blount works closely with the portfolio management team and is responsible for portfolio credit research. In this capacity, she seeks to identify both opportunities and potential trouble spots in the fixed income marketplace before they become industry knowledge. This 'early detection' analysis provides great value to Horizon's Portfolio Managers.

Jill King partner, senior vice president and senior portfolio manager, Horizon Cash Management, said, "It is increasingly clear that volatility in the market is driven equally by economic, political and regulatory metrics that require careful monitoring and evaluation. Danielle brings substantial technical and fundamental analysis to Horizon. Her experience examining complicated products and structures adds great depth to our analytical capabilities and will help Horizon and its clients to pinpoint investing opportunities in the current low-interest rate environment."

Prior to joining Horizon, Ms. Blount worked for Goldman Sachs and served as a fixed income analyst for Citadel Investment Group and Bank of America in Chicago.

About Horizon Cash Management

Horizon Cash Management LLC is an SEC-registered investment advisory firm with a sole focus on cash management services. Founded in 1991, Horizon has helped clients preserve principal and maximize their cash balances through customized portfolios that suit the individual requirements – cash flow, liquidity, risk/return ambitions – of managed futures funds, hedge funds and other institutional investors worldwide. Current assets under management are approximately \$2.5 billion serving over 80 accounts. Horizon is headquartered in Chicago. For further information, please visit: www.horizoncash.com
